

Infra Implementation Tickets

Report generated: 2026-02-15 14:53 UTC

OPS-01: Deployment Auth Mode

- Goal: Define auth behavior per environment.
- Acceptance: Public deployment knows whether demo login is enabled; no mismatch.
- Files: /Users/personal/Desktop/SymbiosoAI THINK TANK/SymbiosoAi-v4-12326/.env.example, /docs/SETUP.md

OPS-02: Observability Baseline

- Goal: Enable OTEL endpoints or disable cleanly.
- Acceptance: No confusing 'disabled' without explanation.
- Files: /Users/personal/Desktop/SymbiosoAI THINK TANK/SymbiosoAi-v4-12326/server/services/observability.ts

OPS-03: Feature Flags Registry

- Goal: Centralized feature flag configuration.
- Acceptance: Single file contains defaults + env overrides.
- Files: /Users/personal/Desktop/SymbiosoAI THINK TANK/SymbiosoAi-v4-12326/server/**

OPS-04: SSE/Streaming Reliability

- Goal: Clear timeout handling and client retries.
- Acceptance: Timeout surfaces error + retry guidance.
- Files: /Users/personal/Desktop/SymbiosoAI THINK TANK/SymbiosoAi-v4-12326/server/streaming.ts

OPS-05: CI Smoke Tests

- Goal: Smoke tests for demo login + /api/think.
- Acceptance: CI fails on auth/think regressions.
- Files: /Users/personal/Desktop/SymbiosoAI THINK TANK/SymbiosoAi-v4-12326/tests/**
